New York, March 17.-The long await-this morning, and to the surprise of a lilinois Central large party of speculators for the fall in Inter. Metropolitan com... the stock market was greeted by a con- Inter. Metr

the stock market was greeted by a continuation of yesterday's upward movement in the price of securities.

The event was the more notable inasmuch as the reductions in the tariff schedules made by the Ways and Means Committee of the House were found to be fully as large as any pessimistic prophecy concerning them has made out. Wall street's interest in the matter, or at least that of the stock exchange ob. least that of the stock exchange, obviously concerned itself chiefly with the new duties suggested upon iron and products of the stock exchange, obviously concerned itself chiefly with the new duties suggested upon iron and products. steel products.

steel products.

These duties did not consist, as was commonly stated to-day, of a general reduction of 50 per cent in the old tariffs, but still represented a more serious curbon particular of the common particular of th but still represented a more serious curtailment than had been looked for. Upon the announcement of the terms of the tariff bill the stock market, that had been strong previously, declined fractionally, the United States Steel common shares touched during the day.

But liquidation in the market was, in Wisconsin Central pfd..... 87% INDUSTRIALS. fact, almost nonexistent. Nobody seemed to desire to sell any stock; on the contrary, a large number of expectant buyers made their appearance, who were of these people were found not buying Am. Locomotive com. upon a decline, but upon an advance, and it was clear that whether or not from the "technical conditions" of speculation at the moment, or from some decided change that has come over the general at Wester of the second of the conditions of the co change that has come over the general Am. Woolen pfd..... financial temper, the market was dominated by a strong and plainly defined advancing tendency.

There is no doubt that the stock market has in recent weeks become oversold, and there is also no doubt that there is

and there is also no doubt that there is a greater feeling of cheerfulness in finan-cial circles than was visible even a fortnight since. Beyond all this, new positive element of encouragement has entered into the situation in the shape of the extroadorinarily favorable impression made upon financial sentiment by the character of Mr. Taft's message to Concharacter of Mr. Taft's message to Con- People's Gas of Chicago. gress yesterday. It has been a long time since there was any such public communication on the part of the Chief Executive of the nation which has caused such heartful declarations of thanksgiven by the heartful declarations of the such heartful declarations of thanksgiving in the business world.

Wall Street Cheerful.

The present is neither the time nor the U. S. Steel com. place for the expression of judgment re- U. S. Steel pfd. place for the expression of judgment regarding the tariff schedules prepared in Congress to-day. It was certain, however, that these schedules were not reever, that these schedules were not received by Wall street with dismay, possibly because of the operation of the well-known principle that matters of this kind are always subjected to a preliminary discounting. Probably in distinctly speculative circles this afternoon the one controlling market force was the natural process of reasoning that the reductions process of reasoning that the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel and other important with the reductions of the second steel second steel and other important with the reductions of the second steel and other important with the reductions of the second second steel second sec It is fair to say in addition to this that

there was a feeling of general satisfac- bonds closed as follows: tion evident to-day over the fact that a dull and honest attempt had been made 28 by the dominant party in Congress to re- 3s, registered, 1908.... vise the tariff duties so as to amply meet by public sentiment in the case, and the history of the past proved that efforts of this kind are usually received with smiles Panama 2s, registered, 1928...

Panama 2s, registered, 1938... It is also manifest that the character

of the reductions that have been pre-pared will be such as to largely, if not entirely, estop any partisan opposition to the new tariff bill in Congress when the debate upon it is under way.

# INDEPENDENCE

Day in and day out, rain or shine, sunlight or shadow, all the way down through the years of life, one great desire seems to exist-to be independent.

If you have never felt this desire, it is probably because you have never really thought seriously and earnestly about the unlimited want, suffering, and regret that may come to a man or woman who grows and the probability of the seriously and described an order of the seriously and the seri

old and becomes dependent on others for

710 14th Street N. W.

The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or corporations for their stability, and are exempt from tanation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Logars and Investments."
